

BALLOON ARTISTS

BALLOONS TO YOU

Nothing adds more color to a special event than the eye-popping latex art of a balloon sculptor. These artists, creating inflated wonders, make interactive sculptures that your guests can wear, show off, or play with during the party. Later they become works of air-filled memorabilia of your occasion.

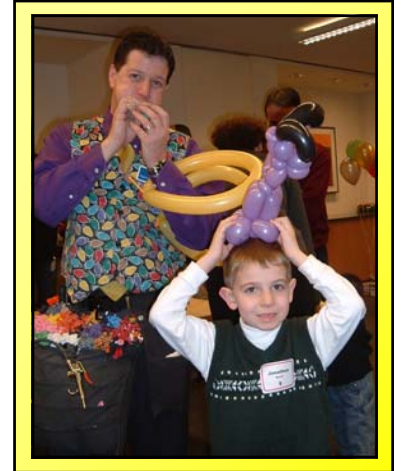

For grand openings, company picnics, holiday parties, Mardi Gras Celebrations and parties of all types, a strolling balloon sculptor is a sure-fire hit.

TWIST AND SHOUT

Our professional artists twist their inflated balloons into dozens of animals, colorful flowers, zany hats, interactive props and funny masks. The result? A kinetic rainbow of color that brightens up any festivity. For holiday events, even candy canes, wreaths and candles can be twisted from the balloons!

AN AIR OF SUCCESS

How successful will our balloon artists be? The fact that children and adults will stand in line, patiently waiting their turn to get their own, customized piece of balloon art says it all. Balloon sculptures are a guaranteed smashing success at any event!
